

SANDEEP KUMAR CHAURASIA

Full Stack Python Developer

@raj.sandip96@gmail.com 8839038324 [Linkedin](#)

Hinjawadi, Pune, India

SUMMARY

I am a Full Stack Python Developer & Security Engineer with over 4 years of experience in building and securing scalable applications. I have a strong proficiency in Python, Django, DRF, React, and various database technologies, coupled with expertise in API Security (OWASP) and CI/CD security automation. My commitment lies in developing secure, efficient applications while promoting best practices in software development and security

EXPERIENCE

Software Engineer

01/2025 - Present

ElasticRun

Pune, India

ElasticRun is a leading logistics and distribution platform that enables businesses to reach rural markets across India

- **Leading development of Enterprise Vulnerability Management System**, an internal platform for automated scan parsing, issue tracking, and real-time developer notifications.
- **Designed workflows** to auto-detect, categorize, and reopen recurring vulnerabilities by integrating **Bandit, Trivy, and GoSec**, reducing manual triaging efforts by **60%**
- **Built dashboards for developers and app owners** to view, fix, and track issues with detailed vulnerability data, code references, and SOP-based remediation guidance, improving remediation turnaround time by **40%**.
- Added a new feature to **capture user consent in SSO authentication**, ensuring compliance and secure access flows.
- Identified and **fixed critical security vulnerabilities** in business applications, strengthening overall system security.

Software Developer

09/2022 - 12/2024

Rapifuzz Pvt Ltd

Gurugram, Haryana, India

Rapifuzz is a cybersecurity company specialising in aing in **application security and vulnerability testing tools** based on **OWASP standards**. It builds products that help organisations secure their applications through **automated vulnerability detection, reporting, and integrations**

- Designed and implemented scalable backend applications and secure REST APIs using Python, Django, Django Rest Framework (DRF), PostgreSQL, and Burp Suite.Ensured compliance with OWASP 2019 security standards by developing business logic and integrating robust security measures to protect against vulnerabilities.
- **Jira and Postman Integration:** Implemented Jira integration within the cybersecurity product to automate ticket creation for vulnerabilities, streamlining tracking and removing the need for users to access Jira directly.Leveraged Postman for comprehensive API testing and automation, enhancing overall development efficiency and accuracy.
- **Log Encryption:**Implemented robust log encryption mechanisms to secure and maintain the integrity of application logs, ensuring protection against unauthorized access and data breaches.
- **GraphQL API Discovery:** Spearheaded the discovery and analysis of GraphQL APIs by reading schema files and parsing SDL (Schema Definition Language) files to ensure secure and efficient API operations.
- **OWASP Compliance:** Designed and integrated secure REST APIs by implementing business logic in accordance with OWASP test cases.Followed comprehensive OWASP guidelines to ensure robust security measures and protect products from vulnerabilities.

Full Stack Python Developer

07/2021 - 08/2022

Realcoderz Technology Pvt Ltd

Noida, U.P, India

Realcoderz Technology Pvt Ltd is engaged in software development and technology solutions

- Developed and maintained a Learning Management System (LMS) similar to Udemy, using Python, Django, DRF, React, and MySQL
- Contributed to the Skillbuilder project, creating modules for SuperAdmin, Instructor, and Learner roles
- Implemented and managed RESTful web services, developed repository and service layers, and conducted debugging to resolve issues

EDUCATION

B.E(EEE)

Oriental College of Technology

04/2014 - 05/2018

Bhopal

12th(PCM)

Kaitholic High School, Ara

02/2010 - 02/2013

Ara

SKILLS

Azure · Azure Cloud · Burp Suite · Django ·

Git · GraphQL · JIRA · Linux · VAPT ·

OWASP · PostgreSQL · Postman · Python ·

ReactJS · REST · BANDIT · VAPT ·

RESTful API

CERTIFICATION

Azure Fundamentals (AZ-900)

Validates knowledge of Azure cloud concepts, core services, security, compliance, and pricing models.

KEY ACHIEVEMENTS

🔧 Security Compliance and Development

Successfully implemented security measures, ensuring robust protection against vulnerabilities in multiple projects

INTERESTS

★ Playing cricket & Visiting Historical places

Passionate about playing cricket and exploring historical places
